PROFILE

Cloud engineer running a self-built serverless platform in production on AWS, designed, deployed and operated with full observability (CloudWatch, X-Ray, SNS alarms) and 23 documented architecture decisions (ADRs). AWS Re/Start 2026 graduate and AWS Certified Cloud Practitioner. Systems analyst with 10+ years running my own businesses: product and cost judgment, not just code.

EXPERIENCE

Founder · Cloud & Backend Engineer — VecinoClub 2026 – Present · Chile

- Built and operate a serverless loyalty platform on AWS (Lambda, API Gateway, DynamoDB, Cognito, CloudFront, S3, SES) with a FastAPI/Python backend, used by live merchants.
- Instrumented observability with CloudWatch metrics, X-Ray tracing and SNS alarms; sustained 0% 5xx errors and 151 ms p50 latency over 3,397 requests in 30 days.
- Shipped via CI/CD (GitHub Actions + AWS SAM) with a manual staging gate that caught 5 bugs before production; Docker-based local environment for testing.
- Led root-cause analysis of a data incident and built a migration runner to prevent recurrence (ADR-0019); 23 ADRs document architecture and cost trade-offs, e.g. HTTP API over REST API ($1 vs $3.50 per million requests).

Co-founder · Development & Operations — Imaquinaria Estudio / Tienda SPA 2016 – Present · Temuco

- Set up and migrated the business's online sales channels across Mercado Libre, Shopify and Jumpseller.
- First merchant and production proving ground for VecinoClub.

Co-founder · Web Administrator & Editor — Cuarto Mundo 2014 – 2022 · Chile

- Administered, hosted and customized the WordPress platform of a digital publication.

Web Server Administrator — Lazos S.A. 2014 – 2015 · Temuco

- Administered client web servers and replicated CONAF's intranet for an internal migration.

UI Designer · Web Developer — iClub S.A. 2011 – 2012 · Temuco

- UI design for an Android restaurant ordering app and corporate website development.

SKILLS

Cloud / AWS: Lambda, API Gateway, DynamoDB, Cognito, CloudFront, S3, SES, CloudWatch, X-Ray, SNS, AWS SAM
Development: Python, FastAPI, React 19, TypeScript, HTML / CSS, MySQL
Platforms & Tools: GitHub Actions, Docker, Git, Cloudflare, Vercel, WordPress
AI & Code Agents: Claude Code, OpenAI Codex, Claude API

EDUCATION

AWS Re/Start — Graduate — Amazon Web Services 2026
Intensive cloud computing program. Official badge. AWS Certified Cloud Practitioner.

Systems Analyst Programmer — Instituto Santo Tomás 2011 – 2015
Software development, MySQL databases, networking, and systems administration.

Learn Python From Scratch — Temuco Lab 2025
Programming logic, Python syntax, Google Colab, pandas library.

LANGUAGE

English: Advanced (C1)
